Form and Function Combine

Any interior designer of note will know just how important it is to combine FORM and FUNCTION.

Having one without the other is a recipe for disaster. Get them both working together and you have a winning combination!

That's what the **Sutherland House Collection** is all about. The perfect blend of form and function

Even just a quick glance through these pages will leave you in no doubt about the beautiful form. The intricate patterns, the subtle handles and the unique legs combine to bring a statement never seen in a bathroom before.

Here is your chance to bring true luxury to your new bathroom with furniture fit for one of Australia's most respected names in interior design.

“Over the last ten years our bathrooms have become the destination room of luxury, an oasis and a place to show off. I wanted to design a range that had a small nod to Hollywood glamour and mid-century design but with the functionality of our modern storage needs. **Shayna Blaze**”

This is a book you can judge by its cover. What's inside is equally as glamorous as the beautiful exterior. An outstanding collection of options let you create a bathroom with the functionality that the 'Storage Queen' is renowned for.

Option up your Sutherland House vanity with the Shayna designed drawer organisers, a secret inner drawer, or add the ingenious hanging door storage (that perfectly fits make up brushes and more) to your shaving cabinet. Plus, there is the option of a simple - yet super practical - hair dryer storage. Why hasn't someone thought of this before?!?

“As glamorous as Hollywood as Hollywood.”

As glamorous as Hollywood with the finesse of classical styling, the **Regency** design would be equally at home in Windsor Castle or LA's latest Bel Air mansion. Or of course, your new bathroom masterpiece.

The complimenting curves and vertical details make an intriguing texture that is architecturally stunning. Joined with the functionality of the optional internal storage, this is a work of art that you will want in your hallway for all to see, rather than your bathroom!

Deco

“Simplicity and complexity.”

From its outset, Art Deco was influenced by bold geometric forms. During the Great Depression, Art Deco became more subdued. A sleeker form of the style appeared and featured curving forms and smooth, polished surfaces.

The **Deco** pattern embodies this to perfection. The flowing curves, when coupled with striking colours from our stunning paint colour collection, revives this art form that dates all the way back to 1850's Paris.

Farmhouse

“Can country and modern coexist?”

Can country and modern coexist? Well clearly, they can. The heritage of the Farmhouse design is ideal for creating a sense of upmarket country luxury. You can easily imagine it in Barossa’s newest winery B&B.

The understated design says so little but so much all at once. Pair it with fittings and fixtures from a Hamptons style pallet for maximum impact that will give timeless elegance to your new bathroom.

Retro

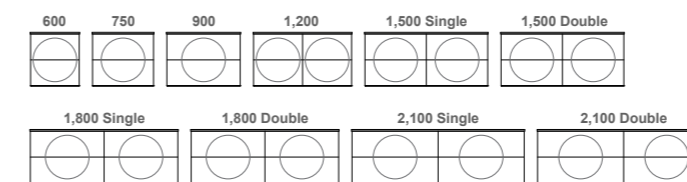

“Intentionally non-conformist.”

That’s what **Retro** is all about - being intentionally non-conformist. By circling back to the past **Retro** makes the old new again and presents a bold statement through its obvious simplicity and strong geometric form.

The flamboyance of **Retro’s** mid-century styling shouts to the world that it carries its own authority and is clearly still as relevant as ever.

Shaving Cabinet

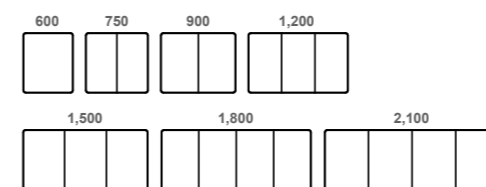

“A well organised shaving cabinet instantly gives you a sense of calm for the hurried start of the day and when you are winding down at the end of the day.

The intricate details of the framed mirror, with its finely radiused corners takes a humble shaving cabinet and makes it a work of art. It doesn't just compliment the Sutherland House Collection vanity designs – it accentuates them.

With its internal oak finish trim, the beautiful design continues when you look inside. Not to mention when you add the optional door mounted make up holders and the ingenious hair dryer holder. 'Wow!' is the only description.

20mm SOLID SURFACE COLLECTION

SilkSurface is the right choice for enduring beauty. Manufactured using a special multi-process technique, these solid surfaces have a beautiful blend of colours with a realistic natural appearance. Tops made from our SilkSurface range are high performance 20mm acrylic solid surfaces.

SilkSurface™

SilkSurface may be substituted for equivalent colours if required.

SilkSurface is manmade slab with an acrylic resin base. As each slab is individual, natural variation in graining and colouring is to be expected. While the colours in this brochure are to the highest standard in printing, it should only be used as an indication of actual product design. Please visit your local showroom to view larger samples.

20mm CAESARSTONE COLLECTION

A classic and natural look! Caesarstone® is a 20mm thick engineered stone product has all the timeless beauty of natural stone. Manufactured with 93% natural quartz the durable surface is a practical, easy to clean, hard wearing option.

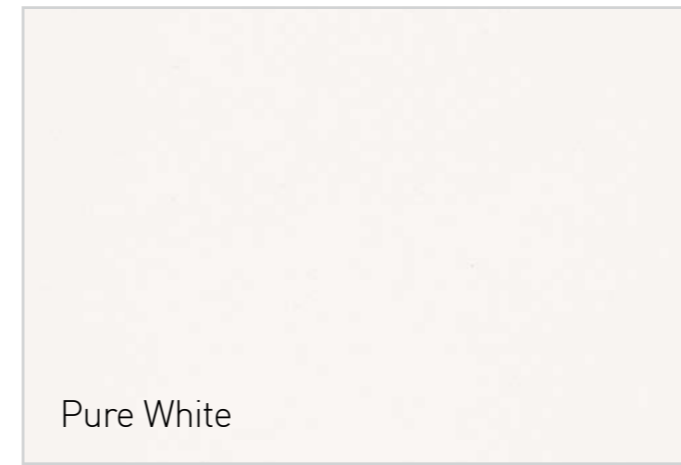

NOTE: While the colours below are our core range, we can access any of the Caesarstone 'Classico' 20mm range for the same price, with the exception of the 'Super Natural ULTRA' colours.

Alpine Mist

Cloudburst Concrete

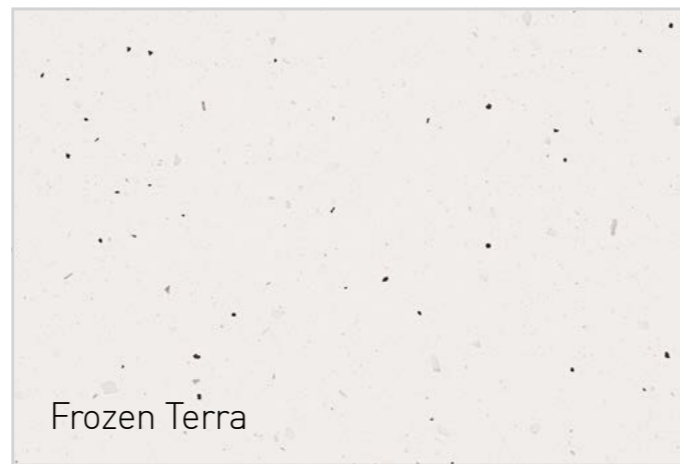

Pure White

Raven

Frosty Carrina

Frozen Terra

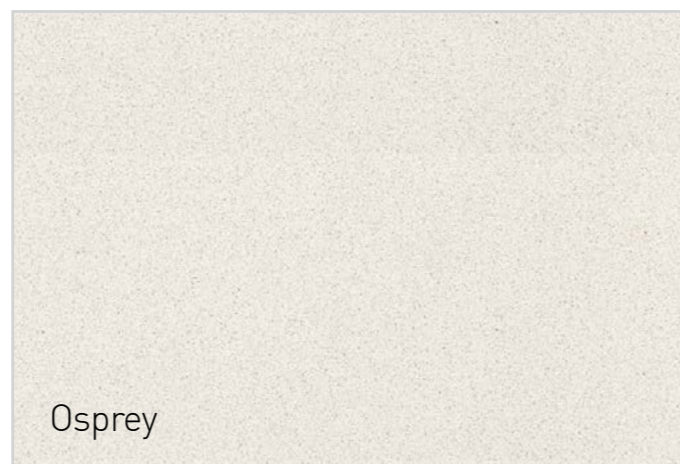

Raw Concrete

Topus Concrete

Noble Grey

White Attica

Caesarstone may be substituted for equivalent colours if required.

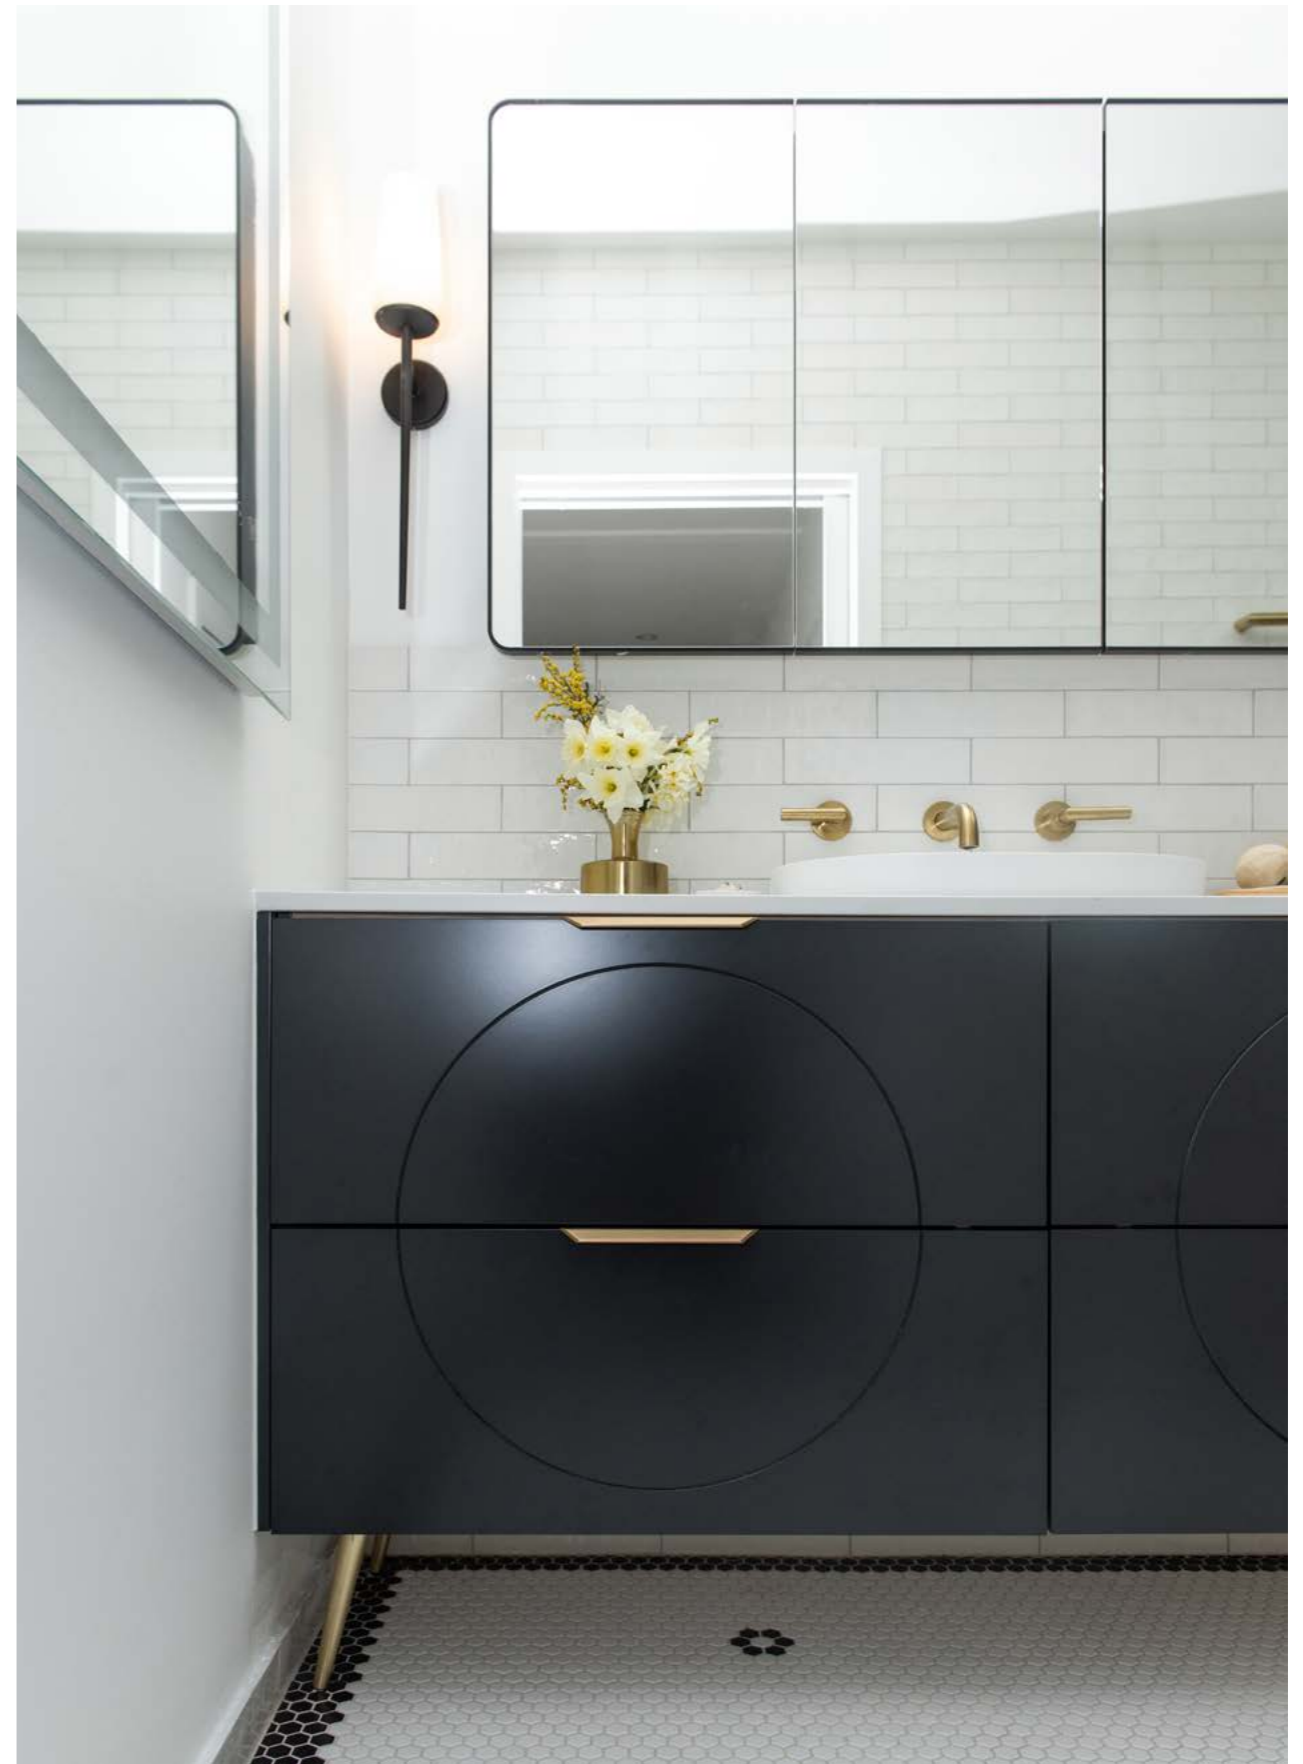

Caesarstone is made from natural quartz and therefore some variation on colour and aggregate may occur. While the colours in this brochure are to the highest standard in printing, it should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone or kitchen retail showroom to appreciate the movement of the design over a large surface.

PAINT COLOUR COLLECTION

Choose any of these colours for our vanities, storage cabinets or shaving cabinets at no extra cost! All painted colours are finished with our durable 2 pack polyurethane hardening process, which makes them easy to clean and hard-wearing.
