THE CLASSICAL COLLECTIONS

# THE CLASSICAL COLLECTIONS.

In design, some forms are so outstanding, so adept that they forge their own stylistic direction and become well-known classics. Brodware's Classical Collection, incorporating 8 individual ranges, is inspired by these definitive shapes, building upon the attributes that made them successful with subtle innovations to bring classical taste and superior style to your space.

# CONTENTS.

---

# THE BRODWARE DIFFERENCE.

At Brodware we understand the importance of appreciating your bathroom; a private space where you can unwind and savour personal time. We have worked to bring together genuine materials, expert detailing, exquisite proportion and artisanal craftsmanship to create a personalised and luxurious bathroom environment. Our tapware, fittings and accessories are dynamic three-dimensional forms that deliver graceful silhouettes, detail and meaning to any space. They are functional sculptures that go beyond creating a stylish room; they transform it into a personal retreat.

From a complete master bathroom suite down to a single piece, choosing Brodware means character, flexibility and attention to detail, everything you need to see your vision reflected in a physical space. And with over 5 decades' experience developing these spaces within which we enjoy our down-time, Brodware remain dedicated to evolving what is possible in bathrooms, delivering elegant functionality in a way that appears effortless.

# EST 1964.

## FIVE DECADES OF MANUFACTURING EXPERIENCE.

Since 1964 Brodware has been committed to design authenticity, innovation and quality, striving to apply this approach to all facets of our craftsmanship and service across 5 decades.

## MADE IN AUSTRALIA.

We take our 'made in Australia' commitment very seriously which is why we are proud to still be designing, engineering and manufacturing our products in Australia. We are so confident in our Australian quality that our customers can now relax in the knowledge that their purchase is covered by a 20year warranty.\*

\*Refer to our warranty terms and conditions for details.

## DESIGN.

### CRAFTSMANSHIP OF ARCHITECTURAL FITTINGS.

Designed and made in Australia, Brodware's bathroom design solutions are carefully selected for their dexterity and crafted to the highest quality. From old world elegance to modern profiles, our mission to meet our clients' every need sees us challenging the boundaries of bathroom design through innovation and creativity.

Fully integrated into the Brodware method is an expert understanding of design history and fabrication processes. This blend of a learned approach and applied skills guarantees mechanical integrity, meticulous craftsmanship, and timeless designs.

# OUR CULTURE OF CONSERVATION.

Brodware is based in one of the most naturally beautiful locations in the world and we recognise the importance of caring for our environment and engaging in sustainable, responsible manufacturing practices. This is why all our tapware is made to be WELS compliant and why we have carefully implemented a manufacturing process which allows us to minimise our effect on the natural world. From the sourcing of our raw components, to our in-house engineering and final fabrication, Brodware's commitment to preservation of the natural world is steadfast, with this philosophy permeating across our entire workforce.

We have purposefully designed our product lines to be at once functional and visually appealing while introducing production processes designed to meet government and environmental regulations. All Brodware decisions, from development through to the selection of materials and production, are made through the lens of environmental sustainability.

# FINISHES.

## DESIGN WITHOUT LIMITATIONS.

With the flexibility to accommodate any imagination, Brodware offers a variety of custom finishes that can be applied throughout our entire range. This service enables us to customise and combine finishes in a variety of ways to suit your needs. Our abundant range of finishes and materials include distinctive handles in Swarovski crystal, black and white porcelain or brushed metals, presenting unrivalled and unprecedented options to make any space your own. As individual elements are layered throughout a space, Brodware helps its clients to realise their unique visions, with products that bridge multiple styles and please even the most discerning eyes. The result of this process: a space where functional living is as personalised as it is sophisticated.

SWISS BRASS PVD

POLISHED & BRUSHED  
NICKEL PVD

# inFinium PVD

---

## **SOCIALLY RESPONSIBLE, CLEAN & DURABLE**

The days of uncertainty about how long your chosen finish will last are over. Brodware's state-of-the-art PVD technology delivers exceptional quality finishes that are made to stand the test of time.

You can select and use the colour you want with confidence, unburdened by the continual maintenance, cleaning and waxing of oxidised finishes or the premature wear of painted or plated finishes. Not only is it extremely durable, PVD is also the most socially responsible and environmentally friendly finishing process. With no hazardous materials involved, the process is exceptionally clean and does not generate chemical waste or water pollution. Using inFinium PVD coatings on our brass base construction generates excellent product longevity, which in turn leads to a significant reduction in waste. inFinium PVD finishes are resistant to scratching, tarnishing, abrasion, corrosion and discolouration, offering a high level of hardness and setting the benchmark on wear resistance. Unlike powder coated and painted finishes, the colour in an inFinium PVD finish is molecularly bonded to the tap, becoming one with the metal itself.

# THE WINSLOW COLLECTION

---

OLD WORLD CHARM COMES TOGETHER WITH MODERN FUNCTIONALITY IN OUR WINSLOW RANGE. INSCRIBED PORCELAIN EMBELLISHMENTS RADIATE AN OPULENCE AND GRACE THAT IS OFFSET ONLY BY THE SIMPLICITY OF MANAGING WATER FLOW WITH OUR FINELY ENGINEERED LEVER AND CROSS CONTROLS.

A photograph of a white door with a brushed brass handle and a basin set in a bathroom. The door has a classic panel design with three vertical sections. The handle is a simple, horizontal bar with a circular end. The basin set is a white, rectangular structure with a flat top and a slightly raised edge. The background is a plain white wall.

## PRODUCT & FINISH DISCLAIMER:

The products shown within this catalogue are intended as a design reference only. Some of the products and special finishes in this catalogue may have been created as a custom product for a large quantity order and so will not be reproduced unless a similar arrangement is agreed upon. The effects of colour and lighting in both photography and print means that the finishes shown in this catalogue may have some variation to the physical product supplied. Whilst we endeavor to give the best representation possible, we do not accept any responsibility for the variations resulting from product updates, photographic lighting, print production or natural developments to finishes as these cannot be avoided. Brodware operates a practice of continuous product design, development and improvement. As such, we reserve the right to change and update products and information without notice. We also reserve the right to vary specifications, update or delete product ranges and special finishes without prior notification.
